Transportation Protocols

- PCS Transportation is available for adults in the Trumbull County Board of DD programs. Transportation concerns for children are to be addressed through the County Board.
- PCS Transportation will follow the announced closing or cancellation by the Trumbull County Board of DD and will not provide transportation services.

Safety is our Priority

- Seat belts need to be worn at all times.
- Parents, guardians and care providers who are to be home when the individual returns home, should be at home before the scheduled drop off time. If an emergency arises and you cannot be home, it is your responsibility to make arrangements for a responsible adult to be present for drop off and call the Central Dispatch Office so that drivers may know the change.
- Drivers are required to follow procedures on proper wheelchair lift operation. Wheelchair brakes are engaged and straps are properly placed for safe transport of individuals utilizing wheelchairs. The Central Dispatch Office is to be notified if these procedures are not met.
